

COLOR COATING OPTIONS

Joel Berman Glass Studios offers color coatings to add creativity and flair to decorative and functional glass applications. Color finishes expand the boundaries of glass design. A vast range of colors are available, all with varying degrees of opacity, texture and gloss. Custom colors can also be ordered. Coatings can be used for both interior and exterior applications.

The colors in the palette below can be applied to any Berman glass textures. By special request custom colors from the Pantone® Matching System can be created.

transparent

frosted

opaque

COATING FINISH OPTIONS

Joel Berman Color Coating is available in three different finishes which offer varying degrees of transparency and transmission of light.
